\$2595.00

During this month there are many exciting things happening! King salmon fishing is in full swing on the Kenai and Kasilof Rivers. Red Salmon are running up the Kenai River in early June, heading for the Russian River which opens June 11th. Fishing on the Russian River for Reds is FREE! We show you how and where to fish, you just have to be here! Red Salmon are also gathering in Big River Lake in early June where we do our float plane fly out fishing and bear viewing. The number of Reds at Big River Lake and the ease and convenience of them for the bear's diet makes this one of Alaska's greatest spots to photograph bears in the wild. Halibut fishing is usually excellent and the tides look real good for the opportunity to land some great fish! Our Multiple Species saltwater King Salmon/Halibut combo trip is action packed with a two king and two halibut per day limit.
